

Meeting Alltraughlin 19.2.03

Questions

- 1) Why was attention not given to Rachel early evening when father constantly advised of listlessness & headache. Should urine bloods etc not have been tested.
- 2) Why did nurses not request senior medical officers earlier.
- 3) Why did it take senior medical officers so long to come after being summoned.
- 4) Why was expectations & hope given early morning when in fact Rachel had suffered massive seizure & really there was no hope.
- 5) Rachel died on 10 June, suspected low sodium level
According to media report: Alltraughlin & Consultants were unaware whose duty/responsibility it was to administer fluids.
So sodium level a new phenomenon?
~~How~~ they checked & if so how often?
On what date was Chief Medical Officer called in?
" " " were new guidelines introduced?
" " " were other hospitals advised of Rachel's case?
- 6) How can we ensure that there is accountability for all activities in ~~any organisation~~ the trust.
- 7) Why has Alltraughlin ~~refused~~ declined to do an interview for the UV programme tonight.
