DATE TYPED 15th October, 1993

Dr. Scott  
The Surgery  
9 Brook Street  
HOLYWOOD  
CO. DOWN

Dear Dr. Scott,

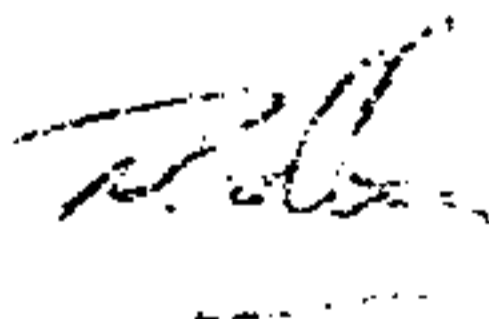

RE: **ADAM STRAIN** [REDACTED]

Adam attended the ward last week as he has been feeling unwell. MSSU has identified a mixed growth. However he has been responding well to Cephalexin and his mother feels that he is generally improved. He remains on Ferromyn 5mls b.d. and Sodium Bicarbonate 12.5mls tds.

He is coming up to the ward on Thursday to have a replacement Foley Catheter. At that time we will also be checking a full blood picture, U & E, Creatinine, CO2.

He will be reviewed in two months as arranged.

Yours sincerely,

DR. NIGEL ROLLINS  
Senior Registrar
