

CRAIGAVON AREA HOSPITAL GROUP TRUST

Re Joanne Mitchell obo Conor

STATEMENT By S/N F J Lavery on 25 May 2004

Date of Incident 8 May 2003

I am a staff nurse with Craigavon Area Hospital.

I was on duty on 8 May 2003.

I remember that Conor's grandmother was very anxious and his mother was also concerned. I spoke with Conor's mother and ascertained that her concerns were related to Conor not getting his IV fluids.

I can't remember anything specific regarding Conor, I dealt with the mother's concerns regarding IV fluids. I provided psychological support to the mother over that period of time.

The family expressed concerns relating to the IV fluids, I cannot remember them expressing any concerns about spasms.

I wrote the comment on the fluid chart in relation to the spasms, the entry was made at between 2.00pm and 3.00pm. I know that I must have told Dr Totten as I have written so on the chart, but I can't remember the detail.

Signed Francis J. Lavery
