Dr Sumner  
[REDACTED]

Dear Dr Sumner

Re: **Conor Mitchell (deceased)**

Mr J Leckey, HM Coroner for Greater Belfast has advised me that "there are no notes for the vital period from the medical ward at Craigavon from the time of his admission to when he had the seizure. There are no details of the IV therapy when he was admitted; dehydrated nor any of the biochemical results relating to that period".

I had sent you copies of the RVH hospital records which included a section of Craigavon notes (a mixture of original and photocopied). I enclose another set of copies of these notes in case we made some error here, but if you still feel notes are missing, Dr C Humphrey MD, Craigavon Area Hospital should be able to help you. We have no other records than those already sent to you.

Yours sincerely

*Peter Walby*
