Dear John - I got the papers for Conor Mitchell today and have had a chance to glance at them. There are no notes for the vital period from the Medical Ward at Craigavon from the time of his admission to when he had the seizure. There are no details of the IV therapy when he was admitted, dehydrated nor any of the biochemical results relating to that period. Could you arrange for me to see these? I'm away in the States for 10days from Thursday this week until the 19th OCT.
I hope you are well - kindest regards - Ted Sumner
