Subject: From Mr A P Walby - Re: UTV Insight Program

Dr McBride

I made a courtesy call to Mr J L Leckey, H M Coroner yesterday to advise him of the UTV Insight program with regards to Lucy Crawford which is being aired tonight. He was already aware that the program was being aired.

I told him that allegations have been made by the program makers, that during the course of the Inquest the RVH had deliberately misled him with regards to the cause of Lucy's death. I wanted to assure him our full co-operation with any queries he may have in relation to this. He has said that he has no concerns with regards to this.

I suggested that the Chief Medical Officer should be informed about the program and Mr Leckey has said that he will call her with regards to this.

If you need any further information, please contact me at ext [REDACTED]

Regards

A P Walby
