[REDACTED]
UPDATE

1. [REDACTED]

[REDACTED]

2. Sperrin Lakeland - Paediatrics

The Department (Dean Sullivan and Judith Hill) have been in touch (Thursday 1 July and Friday 2 July) to share concerns re: recent incidents in Paediatrics in the Erne and advised me that Sharon McCloskey, Children's Nurse Advisor, and Miriam McCarthy, Consultant in Public Health, are visiting the Erne on Friday 2 July to meet management and staff to review current staffing arrangements.

I suggested that such a visit needs to be planned with sensitivity to management and staff, awareness of communication/potential media and needs to interface with work ongoing to secure 'CHI' type review and the internal review of LC case.

I will follow up with Dean on Monday.

Margaret
