Notes: [REDACTED] to Margaret at some point

B/F: 4 NOV
Mg's meeting
this week

24/10/04

Steven

We are not aware of a fourth child. I did ask Eugene Fee about this on Friday and he made a suggestion about a child he thought they might be referring to. This child did have a postmortem and nothing significant was reported. The family did receive an anonymous note. I will discuss details with you.

Margaret

Margaret

During this programme mention was made of a 4th child who died from hyponatraemia. Are we aware of this?

Regards,

Steven
