**4. QUALITY / SAFETY ISSUES**

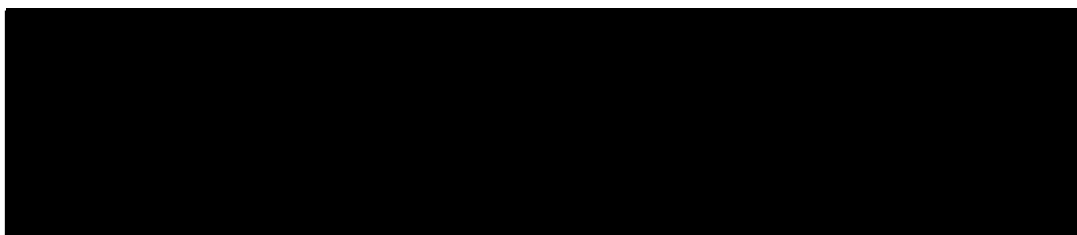

Dr Briscoe informed members that the DHSSPS response to Shipman 3, 4 and 5 was completed and should be launched on 27 November 2006. A programme for development of Service frameworks has been endorsed by the Departmental Board. Further work is needed to develop the methodology including service and user involvement. Different models to involve clinicians were discussed. The DsPH indicated their support to become involved and may have the capacity to provide some SpR support. Members noted the importance of ensuring a common system across all frameworks.
