**Attachments:** 075-066 - Minutes of meetings from Clinical Resource Efficiency Support Team (CREST) - 08-11-01 (Redacted).TIF

---

Catherine I attach a copy of minutes which were provided by the Department as evidene.

The Minutes of the CREST meeting on 8th November 2001 at 2.00pm [Ref: 075-066-213] refer at item 5 to:

"Dr. Stewart reported that the Department had approached CREST regarding the dissemination and 'kite marking' of guidelines on the Prevention of Hyponatraemia in Children Receiving Intravenous Fluids. He introduced Dr. McCarthy, DHSSPS, who stated that the problem had come to the attention of the Department through clinicians, who reported an increase in the condition and felt in need of urgent guidance" (emphasis added)

Can you (i) identify the clinicians that had brought to the attention of the Department an increase in the condition of hypontraemia; (ii) when they had brought it to the Department's attention; (iii) the cases consitituting such an increase; and (iv) what the Department had done.

I would appreciate a response by Wednesday 29th June.  
Kind regards  
Bernie
