List of previous statements, depositions and reports attached:

Ref:	Date:	
093-017	04.09.2006	PSNI Witness Statement
102/1	28.04.2011	Inquiry Witness Statement

IMPORTANT INSTRUCTIONS FOR ANSWERING:

Please identify clearly any document to which you refer or rely upon for your answer. If the document has an Inquiry reference number, e.g. Ref: 049-001-001 which is 'Chart No.1 Old Notes', then please provide that number. If the document does not have such a number then please provide a copy of the document.

I QUERIES ARISING OUT OF YOUR INITIAL WITNESS STATEMENT

With reference to your witness statement dated 28th April 2011, please provide clarification and/or further information in respect of the following:

(1) Answer to Question 1(c) at p.2:

"I do not remember what was discussed with Adam's mother but part of parental responsibilities was accurate record keeping in regard to fluid removal during dialysis and Adam's weight was to be taken pre and post dialysis."

(a) State whether you would have expected the "accurate record keeping in regard to fluid removal during dialysis and Adam's weight [that was] to be taken pre and post dialysis" to have continued on the ward when Adam was admitted.

I would have expected the "accurate record keeping in regard to fluid removal during dialysis and Adam's weight [that was] to be taken pre and post dialysis" to have continued on the ward when Adam was admitted.

Parents who were trained and competent on undertaking their child's dialysis frequently continued their own child's care when their child was admitted to hospital. This care would have included the child's weight pre and post dialysis and would have been recorded along with the amount of fluid removed in the parent held booklet provided by Baxter.

THIS STATEMENT IS TRUE TO THE BEST OF MY KNOWLEDGE AND BELIEF

Signed: *Joanne . Sharratt*

Dated: *11th August 2011*
