I have just been advised by Marie Dunne at Altnagelvin that Trevor Birney 'doorstepped' Dr Murray Quinn at his home on Saturday morning. Dr Quinn has advised Stella Burnside that he lost it with Trevor Birney although I am not aware of the detail. Stella is now considering giving UTV an interview to protect the reputation of Altnagelvin. This is exactly what UTV want and the danger with this is that she will come across as criticising the Department and other Trusts. Stella is currently talking to Dr Quinn and I will get further details later this morning, however I think anyone involved with this case needs to be aware of the danger that Trevor Birney may doorstep them when they are out and about. I will alert Sperrin Lakeland and the Royal.
