M E M O R A N D U M

TO: Sister Miller
FROM: Therese Brown, Risk Management Co-ordinator
DATE: 29 May 2002
REF: **Daily U/E of Post Operative Children Receiving IV Infusions**

At the Clinical Incident Meeting it was agreed that Daily U/E of postoperative children would be undertaken.

Can you advise how you currently ensure that the above is carried out on all those patients? In particular can you advise that this is carried out when you are not on the Ward?

Many thanks.

Therese Brown
Risk Management Co-ordinator
