Colm - Still going through my emails and just got to this one. Missed it when I scrolled down originally.

Will be discussing with Geoff Nesbitt. He was the clinical director for anaesthetics at the time and is now our Medical Director.

Marie

Marie,

As you know, we're still working on a programme examining the deaths of Lucy Crawford and Raychel Ferguson.

In terms of the death of Raychel, in a meeting I had with Geoff Nesbitt last year he spoke of his concern at the RVHSC not disseminating information relating to the death of Adam Strain in 1996.

Can you ask Geoff when exactly did he find out about the death of Adam?

When did he first speak to the CMO about his concerns?

When did Geoff discover that another healthy child, Lucy Crawford, had died at the Erne Hospital 14-months previous to the death of Raychel?

How many deaths did the Working Group, set up by the CMO, examine?

Best wishes,  
Trevor.
