Dear Hugh

Thank you for the copy of the report on the 'role of the Medical Doctor'. It is very comprehensive. As I am on leave this week, I have lent it to Anne O'Brien for her information.

In regard to our recent meeting, I would wish to commend the management team for their handling of what were obviously very difficult circumstances. I have asked Anne O'Brien to contact you with regard to any further assistance or support that you consider necessary.

I can also indicate that the department have commenced a piece of work to develop guidance to the HPSS in regard to investigation of serious adverse events.

Yours sincerely

pp W. Gilmore
