

- Need to describe on External Expects
- Get data looked
- St. Such description of events from Nurses / + such
 + clarity of some of the details in the
 data: we levels of fluid
- External Opinions
 Need later copy + advise data are available

Want to clarify
 the intent on
 what work has
 given +
 what the doctors
 want us in
 terms of going

- (1) Nursing staff would want to know the course of death
- (2) Staff would probably appreciate the opportunity to talk through the case
- (3) We should write to parties offering the opportunity to discuss + inquire if they need to help
- (4) Establish if a H/D is needed or if they have made contact
