Dear Nurse McManus

*I am in receipt of your letter of 23 May 2000, I hope you had an enjoyable period of annual leave. I called in the Ward on one occasion since your return but you were on night duty at the time. Dr O'Donohoe had a meeting with the parents but the most recent information I have is that the final results of the autopsy have not yet been made available to us. I will keep you briefed if any additional information becomes available.*

Yours sincerely
