commented on the
delay between decision
to put up 10 plants to
starting 10 plants

1/ Describe the process

2/ No data/knowledge or course of death

3/ Issue about the level of threat / level of clarity of the volume to be considered (probably not)

4/ Why did it come - did we miss something & could this have been predicted &

5/ if so could any measures have been taken

(8) Issue

- Prescription
- Level of discretion
- Resulting incident
- People with communication
- Documentation
- Response to seeing the body
