

Appendix A

MR. Fee.

Enclosed is my account of what
happened on the night of the 12th April
I hope it is of some help to
you

S/ B Swift
Childress Ward.

Wednesday 12/4/00
Night Duty.

8 - MAR.

7.45 - Report.

Told by S/N M^r Dowell of Lucy Crawford admission.

8.20 Approx: - Went to Treatment room Inside. was

S/N M Burns Dr Malik Mr + Mrs

Crawford Lucy I introduced myself
to the parents and S/N Burns left.

Dr Malik found a small vein in
Lucy's (L) foot and inserted a venflon
He obtained a blood sample and flushed
the venflon with heparin at this time the vein
collapsed it was then removed as it was
not acceptable for IV fluid access.

I remained in the Treatment room with Mrs Crawford
and Lucy as Dr Malik went to phone Dr O'Donoghue
and asked him to come to the ward.

Lucy was given orange juice in a cup Approx 80.
Lucy passed urine into a specimen bag and a
sample was tested by myself which had protein
and ketones. The rest of the urine was placed
into a white top container and was left ready
to be sent to the Lab. I checked Lucy Temp.
and it was still high so I gave her P.R.

Paracetamol 120 mg in the presence of her Mother.

Dr O'Donoghue came to the ward - He requested
Elmo cream be applied to both Lucy hands which
I did while we waited for the cream to

work I made up a drink of Dicalyte and gave
Lucy 100mls which she drank. She asked for her

mother and her

036-039-075

LC-SLT

Dr O Donoghue then inserted a syringe into Lucy's hand
and flushed it with Heparin. I connected the i.v. line
and I was instructed by Dr O Donoghue to run the
fluids at 100 ml per hr. while Lucy has passed urine.
In the presence of Dr O Donoghue Dr Malik myself
Mrs Crawford and Lucy I connected the line to
the drip chamber and took Lucy and Mrs Crawford
to the medical side. Lucy vomited + + + bile
coloured fluid, she remained sleepy but her temp
settled. Mr Crawford and Lucy then came into
the cubicle. This was approx 10.45 PM and after
this point I had no direct contact with Lucy.
After this time I attended to the other
patients on the ward.

At approx 2.45 PM I was attending another patient
with S/N Mr Martin. Sr Edmondson came into the ward
and came to speak to us on the side - room.
E/N Mr Caffrey came and told us Lucy had a
large bowel motion. S/N Mr Martin, Sr Edmondson
and E/N Mr Caffrey went to assist Lucy and her
mother. Lucy was then moved into a side - room.
Approx 2.50 PM I was still in the side - room
when E/N Mr Caffrey called for help. S/N Mr Martin,
Sr Jones went to the other patients.
The patient I was with had settled so I came
out to attend to the other patients.
I seen the emergency trolley been pushed down
the ward so I followed. As I reached the
door of the side - room, Mrs Crawford asked me
to join her husband which I did.
I let Mr Crawford and her daughter into the
ward. Sr Edmondson also entered the ward and
attended the Crawford family.

Ruey's sister phoned and told her grand parents
came to the ward.

In the meantime I continued to attend the other
patients.

Ruey's sister felt faint I took her to the day
room I gave her a glass of water and
set her down by the window.

Her grand parents were in attendance

At this point I continued to attend the rest
of the ward.
