

**Notes of a Discussion with Sister Traynor and Nurse Swift
re Lucy Crawford on 27 April 2000**

Mr Fee spoke with Sister Traynor who commented that the fluid replacement volume was not unusual in a child of this age given her condition. She also stated that there did not appear to be evidence of overload of fluids. We reviewed the notes again. Sister confirmed that the rate to be administered would normally be recorded on the fluid balance chart along with the type of fluids. Mr Fee spoke to Staff Nurse Swift who confirmed that she and Dr Malik were present when the fluid regime was commenced by Dr O'Donohoe. She states they were advised to administer 100ml per hour until Lucy had produced urine. Nurse Swift was not involved in recording the 2.00am or 3.00am record of the fluid balance chart. She suggested that it was possibly Nurse Jones. Nurse Swift agreed to provide a report.
