Janet - Stella asked me to send this for Hugh's attention. Would you ensure he receives it? It has been cleared by our solicitors and by the CMO. It hasn't yet gone to Trevor Burney -not sure how his surname is spelled - but I have left a message for him on his voicemail that it is ready and that he needs to give me a fax number or email address to send it to.

As you'll see, the statement outlines the sequence of events following Raychel's death and goes on to answer specific questions that Trevor asked. He also asked for Dr Nesbitt, our Medical Director, to be interviewed but we have declined.

Regards.

Marie
