Dear Ms Wylie

RE: Securing of files and information in relation the Lucy Crawford Case within the Sperrin Lakeland Trust.

I was tasked with securing all files and information in relation to the Lucy Crawford case, including paper based and electronic files. This work included securing the original hard disc drives from a number of computers within the Trust. Enclosed you will find a hard disc drive which is an exact image of the hard disc drive secured from the computer used by Dr J O'Donohoe on the 3rd November 2004. Dr O'Donohoe has asked, under advice, that this disc be forwarded to you for safe keeping. The image was created in the presence of Dr O'Donohoe and he sealed the envelope with a label, cellotape, his signature and other distinctive markings.

If you have any queries on this matter please contact me.

Frank Curran
Information Services Manager (A)
