RE: Adam Strain DOB: 04/08/91  
[REDACTED]

Dear Dr Savage

Now that Adam has commenced Peritoneal dialysis I have adjusted his feeds to the following:-

1000 ml Paediatric Nutrison  
50 g Maxijul  
50 ml Calogen  
100 ml N Saline

-> made up to 2100 ml

This provides 27 g protein, 1.9 g Protein/kg  
(recommended 2-3 g Protein/kg)  
1425 Kcal, 98 Kcal/kg  
(recommended min 95 Kcal/kg)

I will review Adam's feeds closely.

Yours sincerely

**DICTATED BUT NOT SIGNED BY**

JANET MERCER  
Paediatric Dietitian
