ugh like you i was concerned at the course and then i met office last week. He was forwarding to anne. Also spk briefly with diana who had same thoughts. My understanding was that GAT would be assisting us in applying the methodology, this is what we discussed with anne and detailed in both the note of first mtg and the draft TOR. I am hoping my email to annes office which i will send on to you sh'd alert anne to potential diffs. Regarding participants i had suggested to rebecca writing to jim, eugene and I to ask us to identify the staff to be involved in the RCA process. I have mentioned to donna scott on friday also. bridget

Bridget,

I had a look through this proposal.

My assessment is that our experience with the LC case may be difficult to analyse through this mechanism. The approach is educational in content and we need to clarify who should participate. Will all parties contribute to the group work, and will this type of examination help get at the details. I would be interested in your initial thoughts. We need to include CSA in this process.

I bumped into Anne O'Brien at the conference. She is in Chicago until mid-week. So won't be able to discuss until after the meeting on 30th.

I plan to be in to-morrow am to meet with the Chairman. Any views?

Hugh

Dear Bridget/Hugh

Please find attached draft GAT proposal received from Sue Norwood for the meeting on 30th June. Anne O'Brien is unfortunately unable to attend the meeting, however Jayne Fox (Programme Manager - Education) will be attending.

On behalf of Anne, I hope that all goes well on the 30th and should you have any further queries, please do not hesitate to contact me.

Kind Regards

Bridget O'Donnell
