Dear anne, could we have quick chat re above: 2 points hugh has asked for info and clarity on: 1. is it possible to dev spec for them...in my own mind i was seeing the tor as this, perhaps you could advise either way if it needs to be built into the brief i sent up yesterday or separately. If separately can you give us something???  
... given cost there is an issue re use of management consultants circular (you may not be familiar with in NI)...this requires business case where value exceeds £5k (i recall), which goes to dept for approval. Any legitimate way round this?? eg if commission by your team but charged to us would this work/ be acceptable? Again welcome any steer/view you feel you can offer. bridget
