**Subject:** Complaint against Member - Dr J Jenkins 2004/3139/04

Jackie

For information.

Dr Jenkins is one of six doctors connected with this case.

More detail has been requested but the complainants, Mr and Mrs Ferguson, have alleged that investigations into their daughter's 'unnatural' death failed because doctors concealed the truth.

Mr and Mrs Ferguson claim that their daughter's death could have been avoided had the death of another patient been 'properly and independently investigated' in 2000.

Regards.
