Ian,

Thanks. I tracked the original paper down to discover that the library cannot issue a copy because one has already been issued to CMO Copyright!

Do hope you had a good holiday

Miriam

Email to John Leckey.
Ian.

John,

I am sending you a photocopy of a series of short articles in the correspondence section of last week's Lancet regarding 'Intravenous fluids for seriously ill children'. The original article by Duke and Molineaux (Lancet 2003; 362: 1320 -1323) is also probably worth a look.

Yours, Ian.
