DATE	RELATIVE SEEN	COUNSELLOR	EXPLANATION	EVALUATION
22/10/96	Parents:	Dr Green	Explained that Claire	Explained to
		DR WEBB	had trouble with her	parents that
			breathing and needed	blaise's brain
			to have ventilatory support	had swollen
			now.	and that CT scan
	Parents	Dr Green	Following CT scan Dr	and brain stayed
		DR WEBB	Green and Dr Webb explained	tests showed
			that blaise had swelling	blaise's brain
			of the brain and could	had died.
			possibly be brain dead.	Only the ventilator
				was keeping her
				heart beating.
				Parents very
				distressed but
				understood the
				explanation. Asked
				why her brain
				had swollen. It
				was explained it
				was probably
				caused by a virus
