CRUMLIN
Dublin 12

Dear Dr Montague

Re: Investigation into the death of Adam Strain, Royal Belfast Hospital for Sick Children on 26 November 1995.

Police have had contact with you on a number of occasions both by telephone and by letter, regarding their wish to interview you as a witness in respect of Adam's death. I refer to the letters dated 4 December 2006 and 21 February 2007 from Detective Inspector Nicholl. It is our understanding that you are willing to be interviewed and were consulting with your advisors before making an appointment. Some months have passed and an appointment has not been made.

A final direction regarding a police file concerning the death of Adam Strain submitted to the Public Prosecution Service has been delayed for some months as police informed them it was our hope that we could soon provide a statement from yourself. The delay is placing Adam's family under ongoing strain and the Public Prosecution Service have again contacted police to establish if you are prepared to co-operate with this investigation and to make yourself available for interview to conclude this matter.

If it is going to be possible to make an arrangement to meet for this interview to take place please contact me at [REDACTED] within seven days. We can meet at any police station or other suitable location in Northern Ireland at a time and date which suits you.

Professional Standards Department
PSNI Lisnasharragh, 42 Montgomery Road, Belfast BT6 9LD
