Subject: : Hyponatraema Hospital Deaths

Andrew,

I have reviewed the cases listed below and can confirm that there are no active Police investigations ongoing in respect of any of them.

The current status of each case is listed alongside the name of the child.

1. Adam Strain: PPS file submitted, no prosecution directed.
2. Rachel Ferguson: PPS file submitted, no prosecution directed.
3. Lucy Crawford: PPS file submitted, no prosecution directed.
4. Claire Roberts: PPS file submitted, awaiting direction.
5. [REDACTED] Death from natural causes. No Police investigation.
6. [REDACTED] No Police investigation
7. Conor Mitchell: Not Hyponatraema related death. No Police investigation.

As there is currently no active Police investigations it is my view that the material held by Police can now commence being passed to the Public Inquiry team.
