Sir,

Billy is requesting a meeting to discuss Dr Sumner's report and clarification of issues as Dr Sumner needs to know if attached report is ok. Also we need to get a letter away to Dr Montague and decide if he is a witness now or suspect. Billy and Pj have been tied up on MIT enquiries, if they are ever to get Adams file ready for submission to PPS they will need time to finish it. I am mindful of the fact John O'Hara raised a rumpus about our time scales and lack of adherence to them.

Realise you are busy but could we schedule a meeting for next week to progress matter?

Regards Tara

Chief/Ma'am

I have forwarded Dr Sumners report, and attached also the letter I left with him seeking responses to the points you raised. As soon as suits you we could discuss this.

Dear Dr Sumner

As discussed yesterday, I am forwarding documents which you may not have seen and refer in places to the issue of which doctors had responsibility for Raychel. While I do not wish to direct you away from any part of the statements, I have indicated for your convenience the pages which are relevant. Also please bear in mind that some of these statements are prepared from depositions to the Inquest and are intended to be used as the basis of interviews yet to be conducted with the doctors. The typing has not been corrected and I apologise for the many mistakes. Others are statements taken by police in interview.
