Tara
Did you return to work today (away in sunny Lanzarote) did the sio go to meet the family anyway?

Lorraine and George,

Had a meeting this morning with SIO, DCI Woods. He would like you to make a personal visit to your respective families for whom you are FLO prior to Christmas to update them. He would like you to say that the enquiry team are working away, liaising with our analyst and gathering contact details for medical and nursing personnel. We are planning to conduct interviews in the New Year. No one has been formally interviewed as yet. Please let me know any problems or feedback from the families.

Regards Tara
