Tara,
I am starting to sort the existing documents re these inquiries. An immediate problem I see is that there is a tendency to discuss Adam and Raychel in the one conference etc. This makes disclosure difficult since there are going to be two issues. We need therefore to be clear in future that there will be eg a conference on Raychel, and then a conference on Adam, and a distinct record made of each. At present the difficulty is minimal since there is not a great volume of records but if we continued the difficulties at disclosure stage would be considerable.

Billy
