Sir/Ma'am

Donna Scott, CSA, rang today to enquire re position with the investigation into Raychel - the Trust are inquiring. I told her a decision is now to be made following discussions with PPS and medical experts. I assume she will write, and that a Gold will be called to direct same.

She also said that she has had a very recent FOI request from T Birney re numbers questioned under caution by police, legal advisors etc. This may soon come our way.

Billy
