Billy

I have no problem incurring overtime if it is for operational reasons, and that includes yourself. Approved for both.

Chief,

I have met Samantha today re the Strain and Ferguson investigations. We have discussed the documents she is using and her views so far. Samantha expects to be nearer a report by the time PJ and I are to see Dr Sumner on 23/2.

Samantha agrees that it would be important to speak to her before we go, and we could go over her report and time-line, and she will highlight to us what issues she thinks we should cover with him. I think this is crucial as she has raised issues in relation to Adam and I am sure will do so with Raychel.

The only time that I can see Samantha before we leave is in Monday night. I am out of the country that day but can see Samantha at night. I would like PJ to be there too and ask that she is granted perhaps 5 hrs OT to come with me. I cannot work OT on an RD but can perhaps take a few hours again against it.

Billy
