Dr. Bell,
Neuro-Radiology Department,
Level 3, Block A,
Royal Victoria Hospital,
Belfast BT12 6BE

Dear Dr. Bell,

re: Claire Roberts, [REDACTED] (dob 10.1.87)
G.P.: Dr. McMillin, 220 Knock Road, Belfast 5

I would be very grateful if you would agree to carry out a CT scan on this 7 year old girl with severe learning difficulties. She also has a history of epilepsy, although this is well controlled at present.

She has no dysmorphic features and no definite cause has ever been found.

Thanking you,

Yours sincerely,

Dr. Joan Major, M.B.,D.C.H.
Associate Specialist in Paediatrics

P.S. Claire will require to be anaesthetized, therefore please contact my secretary at Ext. [REDACTED] and she will make arrangements for Claire to be admitted to Maynard Sinclair Ward, Ulster Hospital, and also notify the parents of the appointment date.
