18th July, 1988

Dear Dr. McMillin,

Claire Roberts. [REDACTED]

I saw Claire on 14th July. She is progressing satisfactorily. She is not quite walking on her own but certainly walks round the furniture without any difficulty. [REDACTED]

I thought she was reasonably responsive and indeed she was waving to me almost before mum had finished saying wave bye bye. I am going to ask Dr. Major to more fully assess her.

Yours sincerely,

DR. VALERIE GLENEHILL  
Consultant Paediatrician
