Yes - go ahead on the 27th - the Inquest should only last 1 day and even if it doesn't we can arrange for your evidence to be heard first.

Thanks - I will indicate I am not available for finals. Is it OK for me to leave the country on the morning of the 27th?

Yours sincerely

Medical undergraduate finals are scheduled for the 25th and 26th April -- the day is otherwise free in my diary. I due to attend a conference overseas leaving on the morning of 27th of April and returning on 1st May. I would normally be an examiner at finals, but it would be possible to give the inquest priority. I could if necessary also cancel my plans to go to the conference, but I would need to do this as soon as possible. I would be grateful if you could keep me informed of any definite decision.

Yours sincerely
