Subject: Email from Mr A P Walby re Inquest rerarding Claire Roberts

Pauline

This Inquest ended bn 4th May 2006 with no criticism of the Trust's care of this patient. I will send you a copy of read out Verdict when it appears shortly.

I am letting you know that Counsel for Mr Robers raised some questions which H M Coroner would not allow him to p the medical staff witnesses because he said they would be in the realms of the hospital's complaints procedure.

I spoke to Mr Roberts at the end of the Inquest and advised him that if he still had concerns he should write to the Chief Executive. The clinicians would be happy to meet with the family if that would assist, however I wished to wait that there were questions raised which will properly be answered be the O'Hara Inquiry in due course and you need to be of their interest in discussing policy changes etc arising out of the death of Adam Strain in 1995. I would not want you against allowing the Roberts to run their own mini O'Hara Inquiry themselves.

Peter
