Dear Madam,

RE: INQUIRY INTO HYPONATRAEMIA RELATED DEATHS

I refer to the above and my letter of 23rd November 2011 (BPC-0051-11). As you are aware Dr Mitchell advised the Trust that he had not initialled the four laboratory reports, previously thought to be initialled by him. The Trust has been unable to identify which clinician's initials are on those reports. Further the Trust has not received a response to its request, and subsequent reminders, to Dr. Bhat (regarding the 14 reports which may have been initialled by her) as to why the reports were initialled by her or the significance of those initials.

Yours faithfully,

Joanna Bolton
