Dear Madam

**RE: INQUIRY INTO HYPONATRAEMIA RELATED DEATHS- CLAIRE
ROBERTS**

I refer to the above matter and to your letter dated 26th June 2012 (referenced above). I reply to your letter, using the same numbering as adopted therein, as follows:-

1. I am instructed by my client that the strength of Midazolam supplied to Wards and Departments in RBHSC, at that time, was 2 milligrams per ml in 5ml amps (ampoules).
2. Each box of Midazolam contained 10 amps. The drug was held as stock in Allen Ward, Clarke Clinic and Paediatric ICU. In addition, it was ordered when required by the Barbour and Knox Wards. I am also informed by my client that, in October 1996, Allen Ward held a stock of one box (containing 10 amps).

This completes my client's response to your aforesaid letter.

Yours faithfully

pp R Kelso
