

The Inquiry into Hyponatraemia-related Deaths

Chairman: Mr John O'Hara QC

Ms Joanna Bolton
Directorate of Legal Services
2 Franklin Street
BELFAST
BT2 8DQ

Your Ref: NSCB04/1
NCSW50/1

Our Ref: AD-0586-13

Date: 23rd May 2013

Dear Ms Bolton,

Thank you for your letter of 21st May 2013.

The copy you have provided is redacted in a different manner to that already held by the Inquiry and interested parties in Claire's case. For your convenience I attach a copy, document reference 150-016-005.

This copy was the version to be used as the basis of the further redaction, as permitted by last week's Order of the Lord Chief Justice. I would be grateful to receive a copy of the notes bearing the redactions as marked on the attached document together with the relevant midazolam entries revealed.

In addition, I would be grateful if you would provide the age and weight of Patient W2 at the date the prescription entries relate to. This information is required in order to make a meaningful comparison between the doses administered to Claire and those administered to this patient.

I would be grateful to receive the copy notes in the form requested above today.

Yours sincerely,

Anne Dillon
Solicitor to the Inquiry
