Dear Ms Bolton,

**Re: Adam Strain – Governance**

I would be grateful if you would provide me with the following information:

1. When was the 'Directorate of Risk Management' established and why?
2. What remit, function and responsibilities did it have?
3. To whom was it accountable?
4. The written job description and/or details of the same, with accompanying organisational diagram of the reporting lines of the Directorate of Risk Management.
5. Confirmation that all files from or in relation to this Directorate have been provided to the Inquiry. If so, confirm the file numbers containing the information or if not, please provide any outstanding files.
6. A copy of Dr Murnaghan's curriculum vitae.
7. Clarification of the roles of Dr. Murnaghan who appears to have held two posts, namely Director of Risk Management and Director of Medical Administration. Did these roles co-exist? If so please provide details of how this split in functions operated.
8. The relationship between Dr Murnaghan's role and that of the Medical Director of the Trust.

Yours sincerely,

Anne Dillon  
Solicitor to the Inquiry
