Intensive Care Nursing for RSCN May 1992-September 1992 at Eastern College of Nursing, Belfast. Advanced Paediatric Life Support training, 1993 Blood gas analysis in Paediatrics, Beeches	No record	Case study on hyponatraemia 27/04/10 (PICU) Legal & Professional Issues of Record Keeping 27/04/09,	Does not recall any

EDUCATION & TRAINING OF THE NURSES IN ADAM’S CASE In fluid management (in particular hyponatraemia) and record keeping							
Witness Ref No	Name	Pre-registration	Post-registration	Hospital Induction	CPD	Experience	
			Management Centre, 02/11/98 Introduction to Research, Beeches Management Centre, Nov 2001 Principles of Paediatric Intensive Care Nursing, Beeches Management Centre, Oct 2003		Beeches Management Centre Reducing the Risk of Hyponatraemia in Children receiving IV fluids 01/10/07, BMJ Learning		
101/1, p.5	Mrs Margaret Mathewson	Staff nurse from 1986. Cannot recall anything specific.	Has not nursed for 14 years				Unable to confirm
005/2, p.9	Mrs Catherine Murphy	Trained at the RBHSC from 1987 to 1990. Any training re: fluid management and record keeping would have been included in the nurse training curriculum and hospital induction programme at that time. No recollection of any specific post-registration education and training.					Cannot specify
010/2, p.7	Ms Gillian Poppystone	Trained at the North Down College of Nursing Apr 1988-Jun 1992. Did not recall any specific training re: hyponatraemia. Trained to care for dehydrated children during IV fluid therapy, to be aware of the signs and symptoms of fluid overload and to report these to medical staff. All changes were recorded in the nursing kardex. Great emphasis was placed on accurate recording, legible writing and dating and signing each entry.	Aware from 2001 that Solution 18 no longer in use. Greater emphasis since 2001 on safe administration of IV fluids to children. In her present work, there is adherence to specific guidelines on fluid management in children. In treatment areas, they have algorithm posters clearly visible to all staff indicating guidelines.	None recalled	Completed an E-learning module at the Ulster Hospital Children’s Unit in the last 2 years	None	
102/1, p.4	Mrs Joanne Sharratt (nee Clingham)	No recollection
