> Hi Adrian,

>

> After our earlier telephone conversation regarding this case I trawled

> through our records to see if I could find this case. It would appear

> that we never had an official referral and I confirmed this with Dr.

> Herron who informed me that this is one of the Hyponatremia Cases

> that we didn't receive as a referral from yourselves. I can only

> suggest that Drs Armour & Mirakhur discussed this case while the both

> were looking down a microscope and if this was the case because it

> hadn't officially come to Neuropath it would have been issued with our

> number and hence there wouldn't be a copy of a report available.
