Dear Bernie

A query was raised about the records Dr Webb had of contact with the Trust. He has reviewed his files and thinks this is everything. The front page is a typed note from his then secretary relaying a message, and the rest is self explanatory hopefully. He has nothing pre 2005.

Kind regards

Re: Claire Roberts (deceased)

I reported this child's death to H M Coroner on 16th December 2004 and it seems likely that he will investigate the death which may become a Coroner's Inquest Hearing in due course. I should be grateful if you would provide a draft statement, outlining your part in the care of the late Claire Roberts.

Your statement should commence with "I am a registered medical practitioner/ registrar/consultant, etc". Please also specify when and where you qualified, together with a list of your qualifications. When forwarding your statement, it would be helpful if you could email it to [REDACTED]

This will be a legally significant statement and you may wish to consult your professional body or legal adviser before submitting your draft to this office. A booklet explaining the function of the Coroner's office is available from the Litigation Management Office.

Thank you for your assistance in this matter.

Yours sincerely

Dear *David*

Re: Claire Roberts (deceased)

I enclose your statement redrafted onto a witness statement for which you will be asked to read out at an Inquest should H M Coroner decide to hold one.

Statements are usually first hand accounts of your own actions leaving others to fill in their portion of the patient management, but in this case I feel your more comprehensive style of statement is appropriate in this particular case.

I have changed the sentence beginning "I made the mistake....." on page 20 as I think it is not clear that it was a mistake and I would allow others to judge that if they wish. Other than a few typographical errors corrected I would leave the statement as it stands and I would be grateful if you would sign and date it where marked and return to this office for onward transmission to H M Coroner.

Yours sincerely
