Dear Madam,

**RE: INQUIRY INTO HYPONATRAEMIA RELATED DEATHS**

I refer to the above matter and your letter of 25<sup>th</sup> March 2013.

We have discussed this matter with Counsel who has suggested that the Trust looks at the file in respect of patient W2 in order to ascertain whether there is any information about the dosage of Midazolam. If there is such information, you will be informed that there is further information on the file which may be of relevance to the Inquiry and, thereafter, the family can be contacted and, if necessary, an application to the Court can be made. This approach has the advantage of potentially avoiding unnecessary distress to the family of patient W2 and/or an unnecessary application to the Court.

I would be grateful if you could confirm whether you are agreeable to this proposal in the first instance.

Yours faithfully

Joanna Bolton  
Solicitor Consultant
