### **ANAESTHETIC SKILLS**

I am competent in most aspects of anaesthesia and intensive care medicine in both paediatric (including neonatal) and adult practice, with the exception of cardiac anaesthesia.

### **LEADERSHIP ROLES**

Clinical Supervisor for the Paediatric anaesthetic Trainees during their Paediatric Anaesthesia training module (1<sup>st</sup> August 1999 – 31<sup>st</sup> August 2007); Appointed College Tutor / Educational Supervisor in Anaesthesia (1<sup>st</sup> September 2007 till date); Association of Anaesthetists of Great Britain and Ireland (AAGBI) Linkman (2004 till date); Lead Clinician of the Paediatric Intensive Care Unit (January 2000 – December 2002 & January 2005 till date); Association of Paediatric Anaesthetists of Great Britain and Ireland (APA) Linkman (2007 till date); and Chairman of the Critical Incident Review Group in the Royal Belfast Hospital for Sick Children (January 2000 to August 2012).

### **INTERNATIONAL & NATIONAL TEACHING ROLES**

Invited Lecturer at Anaesthesia refresher courses and conferences as listed below:

- March 1992, Anaesthesia refresher courses, Lusaka, Zambia, and Mbarara, Uganda;
- April 1997, first All Africa Anaesthetic Conference, Harare, Zimbabwe;
- September 2001, Second All Africa Anaesthetic Conference, Durban, South Africa;
- May 2002, Anaesthesia Refresher Course, Lusaka, Zambia;
- September 2005, Annual Congress of the AAGBI, Manchester, United Kingdom;
- September 2007, Anaesthesia Refresher Course, Lusaka, Zambia
- October 2010, Anaesthesia Refresher Course, Lusaka, Zambia.
- August 2011 & 2012, Masters of Medical Science in Anaesthesia, University of Zambia Medical School
- October 2012, Anaesthesia Refresher Course, Lusaka, Zambia

### **MULTI-CENTRE RESEARCH PROJECTS**

1. A multi-centre, randomised, parallel dose-finding, safety-assessor blinded trial to explore the efficacy, safety and pharmacokinetics of four doses of Org 25969 and placebo in paediatric and adult subjects.
2. A multi-site prospective randomised controlled trial comparing spinal and general anaesthesia on neurodevelopmental outcome and apnoea in neonates (in progress).

3. Pprospective multi-centre randomised, double-blind, equivalence study comparing clonidine and midazolam as intravenous sedative agents in critically ill children.

### **PUBLICATIONS**

In Peer-Reviewed Journals	18
Book Chapters	3
