Dear Ms Beggs,

Re: Raychel Clinical

I refer to the above matter.

You will note that contained at Refs: 020-022-042, 020-022-043 and 020-022-044 are a series of Altnagelvin Hospital Laboratory results in respect of Raychel Ferguson.

Mr. K.J.S. Paneasar is named as the doctor on these laboratory results, whereas the statements provided to the Inquiry indicate that these laboratory tests were arranged by Dr. Michael Curran in conjunction with Dr. Jeremy Johnston and Dr. Bernie Trainor.

I would be grateful if you could take specific instructions from your client in order to explain who Mr. Panesar is (by reference to his job title), to clarify for the Inquiry why his name appears on these results, and to specify the role (if any) which he had in relation to the tests or the results that were produced.

I would be grateful for your early response.

Yours sincerely

Anne Dillon
