Dear Mrs Conlon

RE: INQUIRY INTO HYPONATRAEMIA RELATED DEATHS – RAYCHEL FERGUSON

I refer to the above matter and to your letter dated 19th February 2013 (referenced above).
I am instructed as follows: -

1. Therese Brown Risk Management Co-ordinator is the author of the note reference 021-001d-009.
2. Due to the passage of time, Ms Brown cannot specifically state what was meant by "surgeons have a responsibility". She believes it was most likely a reference to the role of surgeons in prescribing fluids post-operatively.
3. Due to the passage of time, Ms Brown cannot specifically state what was meant by "Unwritten Protocol". She believes it was most likely a reference to the use of Solution 18 on the Paediatric Ward.
4. Due to the passage of time, Ms Brown cannot specifically state what was meant by the reference to "Anaesthetists", however, she believes she was noting the question regarding the position of an anaesthetist's prescription post-operatively.

This concludes my client's response to your afore-mentioned letter.

Yours sincerely
